

Turbulo service

for bilge water separators and Sludge Buoy systems

Turbulo has been operating successfully in the market since 1924. The product portfolio encompasses plants for onshore, offshore, power station and shipping applications. Regardless of whether you need technical support, system consultation or emergency service – our qualified technicians are on call 24/7 all over the world. Of course we only install original spare parts to ensure that the bilge water separator class approval always remains valid.

Crew training on board
